Second Day.

Toreka, August 22.-The Democratic Convention reassembléd at ten o'clock yesterday and immediately perfected the permanent organization by the selection of Colonel A. S. Everest, of Atchison, as Permanent Chairman and H. Miles Moore, of Leavenworth, Permanent Secretary. A list lands goes into the County Treasury, as the of Vice-Presidents, one from each Congressional District, was also selected as follows: F. T. Lynch, of Leavenworth; A. A. Harris, of Bourbon; O. M. Ralston, of Montgoniery; A. T. Norton, of Lyon; J. C. Kelner, of cause of increased prices received from ac- Davis; W. S. Gile, of Ellsworth; W. H. Curry, of Rush. Colonel Everest was conducted to the chair by a committee, and in double the amount in fees. There being no neat, happy terms thanked the convention convention. The report of the Committee on Resolutions was then presented as fol-

Resolved, First-The Democracy of Kansas, this day in State Convention assembled at To-peka, do hereby subscribe to the time honored principles of the party as given to us by the National Democratic Convention which conwened at Chicago on the 8th day of July, 1884. We are proud of that grand assemblage of statesmen, who gave to us the choice, of the Democracy of the country for President and Vice-President, Grover Cleveland, of New York, and Thomas A. Hendricks, of Indiana AT Atchison recently, Calista Ellen Hays, and Thomas A. Henoricas, or Indiana. Second-The administration of George W. Glick as Governor of this Commonwealth commends itself to every fair minded citizen without respect to party, because it has been wise, pure strong and convincing. The in-terests of all our people have been attended

to. One million two hundred and fifty-nine thousand acres of land have been reclaimed to of the various counties. The rates of fare and freight have been greatly reduced on all cattle disease, which threatened to paralyze the live stock industry of the State, was just or unusually severe or where the trial was partial, unfair and not in accordance with decisions of the Supreme Court. The stream of immigration which had been turned from our borders during a former administration bas again been restored, and 250,00 inhabit giving of majority and minority representation on the boards of all the public institutions of the State, thereby lifting them above

arty control, and making them public bless Third-That constitutional probibition has been fruitful of discord, perjury and dis-crimination; has not lessened the evils of intemperance, but rather destroyed the pur fireside influences which must ever be the loving power to control the appetites of the weak and wayward; that it has never been endorsed or acquiesced in by a majority of our people; that it is an assault on the per-sonal liberty of the citizen; that it has destroyed and literally confiscated private property without compensation; and that it in harmony with the spirit of a free people to dictate to the individual what he shail eat, drink, or wear, or what re-ligion if any he shall profess. In view of the foregoing, and for other reasons, we demand a resubmission of the prohibitory amendment, and pledge ourselves to work unceasingly for this object. mand the repeal of the present obnoxlous and unjust law for the enforcement of probibition, and in its stead a well regulated license system rigidly enforced whereby the interest of true temperance may be promoted and the liberty of the citizen restored. And we reiterate the views of your worthy candidate for President in his letter of acceptance "that laws unnecessarily interfering with the habits and customs of any of the people which are not offensive to the moral sentiments of the civilized world, and which are consistent with good citizenship and the public welfare are

unwise and vexatious." Fourth-We congratulate the people of the State on the successful establishment by law of a Board of Railroad Commissioners, with statutory enactments for their guidance, the necessity for which was clearly presented to the people by George W. Glick in his canvass for Governor and in his inaugural message to the Legislature. As a result the railroad charges for transportation of passengers and freight have been materially reduced in the past year, thereby saving to the people of the State several millions of dollars, and guaranteeing to the producer and shipper unchang-ing tariffs for the transportation of future products. Where the railroads in the State have vie ded obedience to this law, and have modifled their charges in harmony with its provi-sions, it should be accepted by the people as an act of good faith on their part, and entitles them to just and impartial treatment by our Legislature as industries of incalculable value to the State. And we demand such additional legislation as may be necessary to do exact justice between the railroads and the

people.

Fifth-The good work of restoring public ands to the State for homestead settlement covered, and that corporations and foreign powers be not permitted to acquire and fence in tracts of land to the injury of the settlers. Sixth-That all public lands of the United States, wherever situated, should be opened to actual settlement, and we are therefore in favor of opening up for occupancy by actual settlers all such lands now comprised within the boundaries of the Indian Territory, and we emphatically denounce as unjust and outrageous the arrest and removal of actual set-tiers from such lands by United States the so-called Indian Territory, to be decided by the United States courts, is an outrage upon the rights of all citizens, and a cowardly evasion of a direct call to answer a question of vital importance to such citizens.

we denounce, and will oppose the importation of foreign pauper labor under contract to compete with our citizens; and further, that we are opposed to convict labor as being in opposition to the free labor of our country Eighth—That we respectfully invite the co-operation of all good citizens, without respect

to party, who can give a hearty indorsement to this our platform of principles, touching the questions involved between the political parties in our State.

The resolutions were adopted without debate. The following communication was received and read:

Convention: Sir:-The Resubmission, Republican Convention appointed a committee of confer-ence, to consult with a like committee of your body, with reference to the sole issues dividing the people of Kansas in State politics, and upon which we agree, and we respectfully be allowed no more privileges.

ask the appointment of such committee and a consultation.

CLEVELAND'S ACCEPTANCE.

Sovernor Clevelaud's Letter Accepting the Democratic Nomination for the Presi-

ALBANY, N. Y., August 20.-Governor Cleveland's letter, formally accepting the Democratic nomination for President of the

United States, is as follows: Gentlemen:—I have received your communication dated July 28, 1884, informing me of my nomination to the office of President of the United States, by the National Democratic Convention lately assembled at Chicago. I accept the nomination with a greatful appreciation of the supreme honor conferred and a solemn sense of the responsibility which, in its acceptance, I assume. I have ity which, in its acceptance, I assume. I have carefully considered the platform adopted by the convention and cordially approve the same. So plain a statement of Democratic faith and the principles upon which that party appeals to the sufrages of the people, needs no supplement or explanation.

THE PRESIDENTIAL OFFICE. It should be remembered that the office of President is essentially executive in its nature. The laws enacted by the Legislative branch of the Government, the Chief Executive is bound faithfully to enterce, and whon the wisdom of the political party which selects one of its measure. elects one of its members as a no that office has outlined his policy and declared is principles, it seem to me that nothing in the character of the office or the necessities of the case, requires more from the candidate accepting such nomination than the suggestion of the wed-known truths so absolutely essential to the safety and welfare of the nation that they cannot be too often

recalled or two seriously enforced.

THOSE OTHER PELLOWS.

We proudly call ours a Government by the people. It is not such when a class is tolerated which arrogates to itself the management of public affairs, seeking to control the people instead of representing them. Partles are the pecessar, our cowth of our institutions, but pecessar, our rowth of our institutions, but a Government is not by the people when one party fastens its control upon the country and perp-tuates its power by cajoling and be-traying the people instead of serving them. A Government is not by the people when a re-sult which should represent the intelligent will of free and thinking men, is or can be determined by the shameless corruption of their suffrages. When an election to office shall be the selection by the voters of one of their number to assume for a time a public trust, istead of his dedication to the profession of ofities; when the holders of juickened by a sense of duty, shall avence truth betrayed and pledges broken, and when the suffrage shall be altogether free and un-corrupted, the full realization of a Government by the people will be at hand.

ONE TERM ONLY. And of the means to this end, not one would in my judgment be more effective than an amendment to the constitution disqualifying the President from re-election. When we onsider the patronage of this great office, the solution of power, the temptation to re-tain public place once gained, and more than all, the availability a party finds in an in-cumbent whom a horde of office holders, with a zeal born of benefits received, and fostered by the hope of favors yet to come, stand too ready to aid with money and trained political service. We recognize in the eligibility of the President for re-election a most serious danger to that calm, deliberate and inselligent political action which must characterize a Government by the people.

THE LABORING QUESTION. A true American sentiment recognizes the dignity of labor and the fact that henor lies in honest toil. Well pand labor is a sign of national prosperity; ability to work constitutes the capital, and the wages of labor, the meome of a vast number of our population; a State ticket; that the members of this and this interest should be zealously protected. Our workingmen are not asking unreasonable indulgence but as intelligent and nanly citizens, they seek the same consider ation which those demand, who have other interests at stake. They should receive those who make and execute the laws, to the end that the wants and needs of the employers and the employed shall alike be subserved, and the prosperity of the country, the comon heritage of both, be advanced. As related to this subject, while we should not discourage to our citizen population, yet as a means of protection to our workingmen, a differen rule should prevail concerning those who, if Permanent Organization—II. A. Pierce, Wabaunsee: Frank Ferin, Saline; W. J. Taylor, Jefferson; D. S. Lockwood, Montgomery; H. P. Long, Alien; W. P. Lowe, Davis; C. B. Hamilton. Shawnee.

Adjourned to 8 p. m.

Adjourned to 8 p. m. should recognize the care of the state for honest toil and be framed with a view of improving the condition of the workingman A roper regard for the welfare of the workingman being inseparably connected with their ocratic convention. and protect its natural water ways as will enthen adopted and the convention adjourned. profitable market. CIVIL SERVICE REPORM. The people pay the wages of the public employes and they are entitled to the fair and benest work which the money thus paid should command. It is the duty of those en-trusted with the management of these affairs in Government employment should depend upon their ascertained fitness and the service. The interest of the people be better protected, the estimate of public labor and duty will be immensely improved, public employment will be open to all who demonstrate their fitness to enter it. which embitters public life will cease, and the public departments will not be those who conceive it to be their

duty to aid the party to which they owe their places instead of render-ing a patient and honest return to the people. CONCLUSION. 1 believe that the public temper is such that the veters of the land are prepared to sup port the party which gives the best promise of administering the Government in the hon-est, simple and plain manner which is con-sistent with its character and purposes. They have learned that mystery and conceal in the management of their affairs cover tricks and betrayal. The statesman ship they require consists in honesty and frugality, a prompt response to the needs of tion to dedicate every effort to the country's discharge of public duty. GROVER CLEVELAND.
